

Undergraduate / Graduate Scientist

SGM environmental Pty Limited (SGME) is a boutique employee owned environmental consultancy working throughout Australia and internationally, based in Brisbane.

The SGM environment team is led by highly experienced professionals who are leaders in their fields, having held senior national positions prior to starting SGME. They are supported by a talented team of soil scientists, geochemists and mine closure planners. These skills are combined to help clients achieve their objectives in ways that create enduring value.

Due to strong growth we have an opportunity for an undergraduate or recent graduate to join our company, where valuable experience in soil science, geochemistry and mine closure planning will be gained.

In this role, the opportunity exists to work with and be mentored by industry leaders. As part of the team the successful applicant will work on a range of projects including environmental assessments, research, and management plans for operational projects and state significant developments. They will have the opportunity to work within different sectors including mining and extractive industries, infrastructure and land development. Participation in sample event planning and field assessments with the opportunity of overnight trips where required.

The successful applicant will be an enthusiastic individual who can demonstrate the following:

- a degree (or within final year) in environmental science, engineering or a related discipline with good academic results. Studies in soil science / engineering and natural resource management would be highly regarded;
- a basic knowledge of fundamental environmental sciences, environmental assessment, and soil description;
- high level of written and oral communication skills. For example:
 - the ability to research and prepare sections of reports and draw conclusions to support recommendations for review;
 - good interpersonal skills including the ability to liaise with the team, clients and all relevant stakeholders.
 - a strong work ethic, be highly organised and able to demonstrate sound judgement and initiative;
 - be proficient in Microsoft Office applications;
 - be proactive and an enthusiastic team player; and
 - have a current valid unrestricted drivers' licence.

If you believe that you meet the requirements as stated above, please submit your application to careers@sgmenvironmental.com. Please quote reference "Grad 02021". To have your application considered it must include a tailored covering letter, CV and a copy of your university transcripts.

Only those with a right to work in Australia may apply.

Unsolicited resumes from recruitment consultants will not be accepted.
